

# Student Membership Application

This application is to become a student member of ASCE. All members, either renewing or applying, must pay a \$10 annual due to inherit membership.

This fee also acts as a cover charge for various ASCE activities. Please make payments through cash or check only. Checks may be made payable to ASCE.

If you would like to join the National ASCE Chapter, please follow the Colorado State University ASCE Chapter website to its membership page and click on the National ASCE link.

There will be instructions on how to become a National ASCE Student member. There is no fee to becoming a national member unless you would like to receive the ASCE monthly newsletter and Civil Engineering magazine. The CSU ASCE website is:
