

## **Electrical Engineering Concentration Senior Technical Elective List**

Students in the Electrical Engineering concentration may use any 400- or 500-level EE course which is not required for the major (ex: EE471 cannot be used because it is required by the major) for their Senior Technical Elective. This includes the occasional 480/481 and 580/581 courses which are offered.

Other courses may be approved on an individual basis and must be approved in advance.
