Chairman’s Message

The holidays are over and another year is a reality. The new millennium has begun but I wonder if we are any wiser. What have we learned from the last millennium? Surely we are better off than billions of people the world over. Over half the world’s population makes less in a year than we will spend on our SAMPE dinner. What responsibility do we have to these people? What can we do to help distribute the wealth to these poor countries? The economic injustices of the world cannot be tolerated!

If no other organization in the world is willing to take up the cause and right this wrong then it is up to the Rocky Mountain SAMPE Chapter to do something about it. Please e-mail me your ideas and let’s make the next millennium one in which we eliminate world poverty.
Composites Workshop Was Great!

Our annual Composites Workshop was held at the CompositeTek facility in Boulder on September, 22, 2000. Once again the workshop was a rousing success, with almost 50 in attendance. Participants from local industry and universities were treated to four presentations relevant to industry needs and to a fantastic barbeque dinner.

Holiday Party

On December 8, the Rocky Mountain SAMPE Chapter sponsored a Holiday party. The party was held at Brittany Hill with approximately 50 people in attendance. It was an enjoyable evening and a great opportunity to be together as friends. The highlight of the evening was the Great Loudini, a magician comedian that kept us entertained. Perhaps he can show us how to splice fibers without knots. This evening was made possible by the hard work accomplished during the International SAMPE Technical Conference held in October of 1999. By sponsoring this conference we were able to generate sufficient funds to keep our chapter vibrant. We would like to thank everyone that attended our holiday party and look forward to next years.

Vendors Night

March 22, 2001
