# Senior Design Program
## Oral Presentation Evaluation Sheet

**Project _____________________________________________**

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
</table>
| 1. | ➢ All team members introduced  
➢ Individual assignments explained  
➢ Collaboration with other disciplines explained  |
| 2. | Project goals clearly stated |
| 3. | Analysis of existing (prior) research |
| 4. | Current work |
| 5. | Budget |
| 6. | Plans for next semester or  
Recommendation for project continuation |
| 7. | Did the team:  
| a) | Identify, formulate and solve engineering problems  
| b) | Design a system, component or process to meet desired needs  
(e.g. economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability)  
| c) | Apply knowledge of mathematics, science and engineering  
| d) | Use the techniques, skills and modern engineering tools (necessary for engineering practice)  
| e) | Design and conduct experiments, analyze and interpret data  
| f) | Show impact of engineering solution in context (global, economic, environmental and societal context)  
| g) | Show knowledge of contemporary issues  
| h) | Show understanding of professional and ethical responsibility  
| i) | Consider the impact of evolving technologies (emphasizes the need for life-long learning)  |
| 8. | Team’s ability to communicate effectively:  
| a) | Quality of information provided  
| b) | Quantity of information provided  
| c) | Appearance of Power Point  
| d) | Effectiveness of the oral presentation  
| e) | Team appearance and coherence  
| f) | Everyone participated (almost equally, up to 5 team members)  |

### Please grade on the scale 5 to 1, where:

- **5 – exceptional:** absolutely no improvement needed  
- **4 – very good:** minimal improvement needed  
- **3 – average:** meets the expectations, but could use some improvement  
- **2 – below average:** it is still ok, but needs more improvement  
- **1 – not satisfactory:** presentation put together with little care and needs significant improvement

**Overall grade** (rational numbers ok; e.g. 4.7; 4.2; 3.4; …)

**Comments:**
