

# Create an Engineering Network Account

You will need an engineering network account to get started with ECE102 lab assignments as well as access other resources. Create your ENGR account by the due date (i.e., before the next lab begins). If you have any difficulties, please meet one of the TAs during their office hours.

## **An Engineering network account will provide you with facilities such as:**

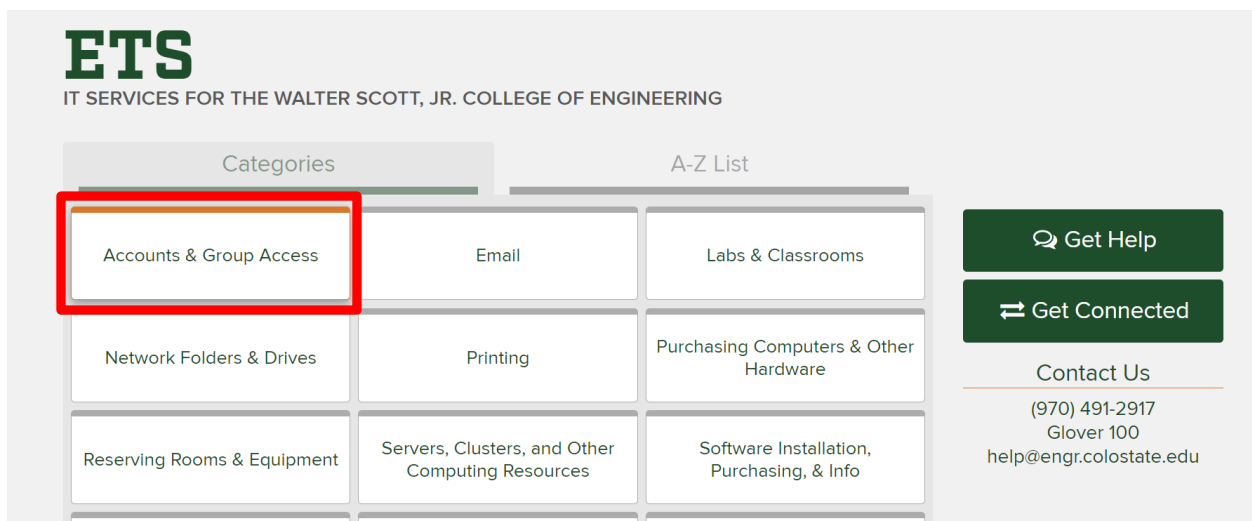

- Login access to engineering lab computers
- Engineering computer lab door lock access
- Personal file space on the Engineering College computer network
- Printing credits for students
- Access to online applications provided by ETS
- Provide access to software and hardware required for ECE102 lab assignments

## **How to create an Engineering network account (ETS account):**

1] Visit the link below

<https://www.engr.colostate.edu/ets/>

and click on the tab 'Accounts & Group Access.

The screenshot shows the ETS (Engineering Technical Services) website for the Walter Scott, Jr. College of Engineering. The page features a header with the ETS logo and the text "IT SERVICES FOR THE WALTER SCOTT, JR. COLLEGE OF ENGINEERING". Below the header, there are two tabs: "Categories" and "A-Z List". Under the "Categories" tab, a grid of service categories is displayed. The "Accounts & Group Access" category is highlighted with a red border. Other categories include "Email", "Labs & Classrooms", "Network Folders & Drives", "Printing", "Purchasing Computers & Other Hardware", "Reserving Rooms & Equipment", "Servers, Clusters, and Other Computing Resources", and "Software Installation, Purchasing, & Info". To the right of the grid, there are two green buttons: "Get Help" and "Get Connected". Below these buttons, there is a "Contact Us" section with the phone number (970) 491-2917, the address Glover 100, and the email help@engr.colostate.edu.

Categories	A-Z List	
Accounts & Group Access	Email	Labs & Classrooms
Network Folders & Drives	Printing	Purchasing Computers & Other Hardware
Reserving Rooms & Equipment	Servers, Clusters, and Other Computing Resources	Software Installation, Purchasing, & Info

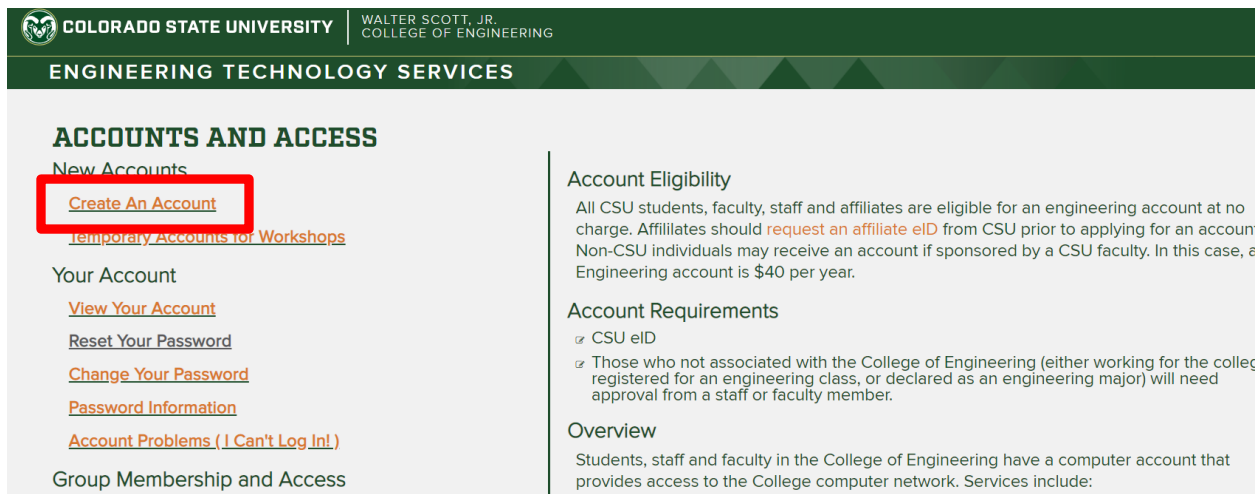

**Get Help**

**Get Connected**

2] This will take you to the following page:

Click on "Create An Account"

The screenshot shows the Engineering Technology Services website. At the top, there is a dark green header with the Colorado State University logo and the text "WALTER SCOTT, JR. COLLEGE OF ENGINEERING". Below the header, the main navigation bar reads "ENGINEERING TECHNOLOGY SERVICES". The main content area is titled "ACCOUNTS AND ACCESS" and is divided into two columns. The left column lists several options: "New Accounts" (with "Create An Account" highlighted in a red box), "Temporary Accounts for Workshops", "Your Account" (with links for "View Your Account", "Reset Your Password", "Change Your Password", "Password Information", and "Account Problems (I Can't Log In!)"), and "Group Membership and Access". The right column contains sections for "Account Eligibility", "Account Requirements" (listing "CSU eID" and a requirement for approval from a staff or faculty member), and "Overview" (describing the computer network access).

Login with your eID and password and follow the instructions.

**NOTE: Engineering Technology Services (ETS) has its office in Glover 100 in CSU campus. Feel free to contact them in-person or online in case of any difficulty in creating an engineering account using following contact information:**

[\(970\) 491-2917](tel:9704912917)

[Glover 100](#)

[help@enr.colostate.edu](mailto:help@enr.colostate.edu)

**Note: Creating an ETS account may take a few days so it is best to do so at least 3 days before your first lab session.**
