

CV Ryan Bailey

Curriculum Vitae – February 2024

Ryan T. Bailey

Associate Professor
Civil & Environmental Engineering Department
Colorado State University
1372 Campus Delivery
Fort Collins, Colorado 80523-1372
Email: rtbailey@colostate.edu
Website: <http://jtcox94.wix.com/rtbailey>

Summary of Experience and Qualifications

Dr. Ryan Bailey’s research focuses on the sustainability of watershed management practices regarding water quantity and water quality. Recent projects have focused on the development of process-based, dynamic numerical modeling codes to identify sustainable management practices within environmental systems and have provided a foundation for ongoing and future research. Projects include:

- Assessment of selenium, nitrogen, phosphorus, uranium, and salinity reactive transport in agricultural groundwater systems through field, laboratory, and numerical modeling approaches
- Linking watershed and groundwater flow and transport models to assess the movement of water and nutrients in watersheds, and investigating best-management practices for pollutant remediation
- Investigating best-management practices for sustaining groundwater resources in the Ogallala Aquifer
- Assessing current and future groundwater resources of atoll island nations
- Investigating impacts of groundwater pumping on water rights

Dr. Bailey teaches graduate courses (CIVE 531 Groundwater Hydrology, CIVE 542 Water Quality Modeling, CIVE 580 Methods for Sustainable Water Supply) and undergraduate courses (CIVE 423 Groundwater Engineering, CIVE 260 Statics-Honors).

Education

PhD	Colorado State University, Fort Collins, CO, July 2012 Civil & Environmental Engineering – Groundwater Hydrology & Water Quality <u>Dissertation</u> : <i>Selenium and Nitrogen Cycling in Irrigated Agricultural Groundwater Systems: Conceptualization, Modeling, and Mitigation</i>
MS	University of Guam, Mangilao, GU, 2008 Water & Environmental Research Institute of the Western Pacific – Environmental Science <u>Thesis</u> : <i>Groundwater Resources of Atoll Islands: Observation, Modeling, and Management</i>
BS	Brigham Young University, Provo, UT 2006 Civil & Environmental Engineering

Positions Held

Associate Professor, Colorado State University, Civil & Environmental Engineering Department
July 2019 – Present

Assistant Professor, Colorado State University, Civil & Environmental Engineering Department
July 2013 – July 2019

Funded Research Projects

Active Projects as Principal Investigator

Total: \$1.50M

Bailey, R. T. (PI), "CAREER: What Governs Salt Mobilization and Transport in Upland Semi-Arid Catchments?," Sponsored by NSF-National Science Foundation, Federal, \$496,062.00. (January 1, 2019 - December 31, 2023).

Bailey, R. T. (PI), "Participant Support: CAREER: What Governs Salt Mobilization and Transport in Upland Semi-Arid Catchments?," Sponsored by NSF-National Science Foundation, Federal, \$4,800.00. (January 1, 2019 - December 31, 2023).

Bailey, R. T. (PI), "Statewide Modeling of Selenium and Nitrogen Transport and Mitigation," Sponsored by Colorado Department of Public Health and Environment, State of Colorado, \$135,000.00. (January 26, 2023 - December 31, 2024).

Bailey, R. T. (PI), "Hydrologic modeling to investigate irrigation impacts on the White River stream-aquifer system," Sponsored by Colorado Water Conservation Board, State of Colorado, \$49,990.00. (August 4, 2023 - June 30, 2024).

Bailey, R. T. (PI), "Sensitivity and uncertainty analysis for the Lower Arkansas selenium model," Sponsored by Colorado Department of Public Health and Environment, State of Colorado, \$38,815.00. (August 31, 2023 - December 31, 2023).

Bailey, R. T. (PI), "Conjunctive Freshwater-Saltwater Management for Climate-Resilient Agroecosystems," Sponsored by Oklahoma State University, Other Domestic Higher Education, \$262,813.00. (December 15, 2021 - June 15, 2025).

Bailey, R. T. (PI), Suter, J. (CoPI), "Improved crop yield and soil salinity by cost-effective integration of microbial community, hydrology, desalination, and renewable power," Sponsored by University of North Texas, Other Domestic Higher Education, \$399,140.00. (August 1, 2019 - July 31, 2024).

Bailey, R. T., "Assessment of the effects of irrigation water management on nutrient and salinity loads from agricultural fields to river basin scales," Sponsored by Agricultural Experiment Station, Colorado State University, \$120,000.00. (July 1, 2023 - June 30, 2026).

Past Projects as Senior Collaborator

Sustaining Agriculture through Adaptive Management Resilient to a Declining Ogallala Aquifer and Changing Climate [Total Award: \\$7,384,939](#)

Sponsor: USDA – National Institute of Food and Agriculture (2016-2021)

Principal Investigator: Dr. Meagan Schipanski (Soil & Crop Sciences, CSU)

Past Projects as Principal Investigator

Integration of a New Groundwater Flow and Salinity Model in SWAT+ [\\$59,630](#)

Sponsor: USDA-ARS (2022-2023)

Quantifying the Impact of Management Practices on Selenium and Nitrogen in the Lower Arkansas River Basin downstream of John Martin Reservoir [\\$28,000](#)

Sponsor: Colorado Department of Public Health and Environment (2022)

Integration of SWAT+/MODFLOW and Inclusion in the Geospatial Modeling Interface [\\$110,000](#)

Sponsor: USDA-ARS in Temple, Texas (2018-2023)

Improved Modeling Framework for Assessing Phosphorus and Nitrogen Transport in Tile-Drained Watersheds [\\$497,500](#)

Sponsor: USDA-NIFA-AFRI (2017-2022)

Selenium Characterization and Modeling for the Lower Arkansas River Basin [\\$405,002](#)

Sponsor: Colorado Department of Public Health and Environment (2018-2021)

Amendment to Selenium Characterization and Modeling for the Lower Arkansas River Basin [\\$22,000](#)

Sponsor: Colorado Department of Public Health and Environment (2021)

BLM-NOC, Enhancement of APEX Model for simulating soil erosion and salt transport in the Colorado River Basin [\\$300,988](#)

Sponsor: Bureau of Land Management (via Texas A&M University) (2017-2022)

Quantifying Salinity Controls and Crop Water Footprint in Irrigated Stream-Aquifer Systems [\\$60,000](#)

Sponsor: CSU Agricultural Experiment Station (2020-2022)

Investigating the Impact of Recharge Ponds, Pumping, and Drought on Groundwater Levels and Return Flows in the LaSalle/Gilcrest Area during 2013-2018 [\\$50,000](#)

Sponsor: Colorado Water Conservation Board (2019-2020)

Modeling and management of salinity in irrigated regions affected by tile drain networks [\\$60,000](#)

Sponsor: CSU Agricultural Experiment Station (2018-2020)

Investigating major influences on groundwater levels in the LaSalle/Gilcrest area [\\$47,610](#)

Sponsor: Colorado Water Conservation Board (2018-2019)

Selenium Characterization and Modeling for the Lower Arkansas River Basin [\\$134,987](#)

Sponsor: Colorado Department of Public Health and Environment (2017-2018)

Assessment and Management of Saline Irrigation-Return Flows in Areas Affected by Tile Drain Networks [\\$90,000](#)

Sponsor: CSU Agricultural Experiment Station (2015-2018)

Constructing and Testing a Refined Groundwater Model for the LaSalle/Gilcrest Area [\\$48,515](#)

Sponsor: Colorado Water Conservation Board (2017-2018)

Measuring Pumping-Induced Streamflow Depletion [\\$49,572](#)

Sponsor: Water & Environmental Systems Technology, Inc. (2016-2018)

Developing a refined groundwater flow model for the LaSalle/Gilcrest area [\\$49,234](#)

Sponsor – Colorado Water Conservation Board (2016-2017)

Quantifying pumping-induced streamflow depletion in the South Platte River corridor [\\$45,310](#)

Sponsor – Colorado Water Conservation Board (2016-2017)

Groundwater Pumping Pilot Study for Gilcrest [\\$8,050](#)

Sponsor – West Greeley Conservation District (2016-2017)

Integration of SWAT and MODFLOW and Inclusion in the Geospatial Modeling Interface [\\$60,000](#)

Sponsor – USDA-ARS (Temple, TX) (2015-2016)

Instrumentation for Gilcrest Pilot Study [\\$15,000](#)

Sponsor – Colorado Water Conservation Board (2016)

Modeling the Influence of Conjunctive Water Use on Flow Regimes in the South Platte River Basin using the South Platte Decision Support System [\\$49,234](#)

Sponsor – Colorado Water Conservation Board (2015-2016)

Increasing Coastal Water Security for Climate Change in Selected FSM State Outlying Islands [\\$22,400](#)

Sponsor – Research Corporation of the University of Guam (2015-2016)

Year 3-Modeling the Influence of Conjunctive Water Use on Flow Regimes in the South Platte River Basin Using the South Platte Decision Support System [\\$50,000](#)

Sponsor – Colorado Water Conservation Board (2014-2015)

Developing a Framework for Simulating the Fate and Transport of Salinity Species in the Lower Arkansas River Valley, Colorado [\\$10,000](#)

Sponsor: CSU Water Center, Water Faculty Fellow (2014-2015)

Sampling for Selenium Drainage Assessment [\\$7,420](#)

Sponsor – AVID LLC (2014)

Past Projects as Co-Principal Investigator

Total: \$1.8M

Water Quality and Productivity Enhancement in an Irrigated River Basin through Participatory Conservation Planning and Analysis [Total Award: \\$659,954](#)

Sponsor: USDA – National Institute of Food and Agriculture, NIWQP (2014-2019)

Principal Investigator: Dr. Timothy K. Gates (Civil and Environmental Engineering, CSU)

Improved Assessment of Nitrogen and Phosphorus Fate and Transport for Irrigated Agricultural Watersheds in Semi-Arid Regions [Total Award: \\$488,500](#)

Sponsor: USDA – National Institute of Food and Agriculture - AFRI (2013-2018)

Principal Investigator: Dr. Mazdak Arabi (Civil and Environmental Engineering, CSU)

Lower Arkansas Natural Uranium Project: Findings Ways to Mitigate Irrigation-Induced Uranium Contamination in Colorado's Lower Arkansas River Valley [Total Award: \\$112,500](#)

Sponsor: Colorado Department of Public Health and Environment (2016-2019)

Principal Investigator: Dr. Timothy K. Gates (Civil and Environmental Engineering, CSU)

Identifying Arkansas River Selenium and Nitrogen Best Management practices [Total Award: \\$256,620](#)

Sponsor: Colorado Department of Public Health and Environment (2012-2016)

Principal Investigator: Dr. Timothy K. Gates

Enhancement of Identifying Arkansas River Selenium and Nitrogen Best Management practices *Sponsor:* Water Quality Improvement Fund, Colorado Department of Public Health and Environment [Total Award: \\$59,462](#)

Sponsor: Colorado Department of Public Health and Environment (2013-2014)

Principal Investigator: Dr. Timothy K. Gates

Building and Assessing an Accounting Tool for Water from Lease-Fallowing in Colorado's Lower Arkansas River Valley [Total Award: \\$227,551](#)

Sponsor: Upper Arkansas Valley Water Conservancy District (2012-2014)

Principal Investigator: Dr. Timothy K. Gates

Other Research Contracts

Groundwater Resources Analysis of Itu Aba [\\$2,100](#)

Sponsor: Foley Hoag LLP, Washington, D.C. (2015-2016)

Sustainable Conjunctive use of Groundwater and Rain Catchment Water under Variable Climatic Scenarios for Atoll Island Communities [\\$10,000](#)

Sponsor: United States of Geologic Survey (by way of University of Guam) (2015-2016)

Sustainable Conjunctive use of Groundwater and Rain Catchment Water under Variable Climatic Scenarios for Atoll Island Communities [\\$10,000](#)

Sponsor: United States of Geologic Survey (by way of University of Guam) (2014-2015)

Combined Use of Surface Water and Groundwater for Sustainability of Atoll Island Water Supply [\\$7,000](#)

Sponsor: United States of Geologic Survey (by way of University of Guam) (2012-2013)

Groundwater Resources Analysis for the Maldives (Maldives Water Scarcity) [\\$5,700](#)

Sponsor: World Bank (2012-2013)

Teaching and Instruction

Undergraduate Courses

CIVE 260 Engineering Mechanics: Statics (8 semesters) Average Student Evaluation (186): 4.99/5.00

CIVE 261 Engineering Mechanics: Dynamics (1 semester) Average Student Evaluation (14): 4.93/5.00

CIVE 423 Groundwater Engineering (5 semesters) Average Student Evaluation (102): 4.92/5.00

Graduate Courses

CIVE 580-A9 Methods of Sustainable Water Supply (1 semester) Average Student Evaluation (12): 4.83/5.00

CIVE 531 Groundwater Hydrology (4 semesters) Average Student Evaluation (99): 4.94/5.00

CIVE 542 Water Quality Modeling (2 semesters)

Training Courses / Public Outreach

- “Assessment of future water supply for Micronesian atoll island communities” (Pohnpei State, Federated States of Micronesia; October 2014)
- “Conjunctive use of rain catchment water and groundwater for atoll island communities” (Yap State, Federated States of Micronesia; October 2012)
- “Sustainability of Water Supply on Atoll Islands: Water Resources, Education, and Future Needs” (Chuuk State, Federated States of Micronesia; October 2011)
- “Groundwater Resources of Atoll Islands: Threats, Prediction, and Management” (Pohnpei State, Federated States of Micronesia, October 2010)
- “Groundwater Management for Atoll Islands” (Yap and Pohnpei States, Federated States of Micronesia; August 2009)

Workshops Conducted

- SWAT-MODFLOW workshop. October 2015 at Purdue University, in association with the international SWAT conference. Number of attendees: 18
- SWAT-MODFLOW workshop. January 2017 at Aarhus University, Denmark. Number of attendees: 7
- SWAT-MODFLOW workshop. August 2017 at Colorado State University. Number of attendees: 7
- QSWATMOD workshop. June 2018 at 9th International Congress on Environmental Modelling and Software, Fort Collins, CO, June 24-28 2018.

CV Ryan Bailey

- SWAT-MODFLOW workshop. September 2018 at *SWAT International Conference*, September 2018, Brussels, Belgium. Number of attendees: **20**
- SWAT-MODFLOW workshop. July 2019 at *SWAT International Conference*, July 2019, Vienna, Austria. Number of attendees: **15**
- SWAT+ *gwflow* workshop. June 2023 at *SWAT International Conference*, June 2023, Aarhus, Denmark. Number of attendees: **30**

Mentoring

Number of MS students graduated (2015-2022): **18**
Number of PhD students graduated (2018-2020): **10**
Number of post-doctoral fellows supervised: **4**

Number of current MS students: **3**
Number of current PhD students: **6**

Awards

- (2015) Faculty Award for Excellence in Teaching, Department of Civil and Environmental Engineering, Colorado State University. Awarded May 2015.
- (2015) Dr. Vujica Yevjevich Faculty Scholarship, Dept. of Civil and Environmental Engineering, Colorado State University. Awarded December 2015.
- (2017) Scientist of the Year Award, for scientific contribution to the SWAT model at the 2017 International SWAT Conference, June 28-30, 2017, Warsaw, Poland.

CV Ryan Bailey

- (2018) Tison Award for outstanding paper in *Hydrologic Sciences Journal*, International Association of Hydrological Sciences, World Meteorological Organization, Geneva, Switzerland. Awarded May 2018.
- (2018) Faculty Award for Outstanding Faculty Performance, Department of Civil and Environmental Engineering, Colorado State University. Awarded May 2018.
- (2018) George T. Abell Outstanding Early-Career Faculty Award, Walter Scott College of Engineering, Colorado State University. Awarded May 2018.
- (2021) Faculty Award for Excellence in Research, Department of Civil and Environmental Engineering, Colorado State University. Awarded May 2021.
- (2021) Interdisciplinary Scholarship Team Award, as part of the Ogallala Water Coordinated Agriculture Project Team faculty. Colorado State University. Awarded May 2021.
