

CSU Advising Mission: Guided by CSU’s Principles of Community and the Land-Grant mission of access and equity, we achieve our vision through an integrated community of advisors who engage in intentional, holistic, and relationship-centered interactions to empower all students to navigate their unique paths and foster learning, development and academic success.

Student Learning Outcomes:

- Apply information about CSU requirements, policies and procedures to educational career
- Demonstrate advising worksheets and online technology (Ramweb, degree audit, etc.) to access university information, registration, and track progress toward degree
- Identify and utilize campus resources such as tutoring, education abroad, CSU Health Center, the Engineering Success Center and CSU Career Service to assist in achieving academic, personal and career goals
- Integrate personal values and goals to develop a plan to achieve personal definition of success

Remember....	<ul style="list-style-type: none"> • There’s no minimum GPA to stay in MECH, however CSU has GPA standards to stay at the university. • If you earn a D or better in all MECH degree courses that’s considered a passing grade and you do not have to retake that course, with the exception of Math 124 and 126 which require B or better. • Your advisor will not make decisions for you during your advising sessions. They will provide you with the most accurate information available and will work collaboratively with you to create a realistic plan to accomplish your educational goals. The educational choices you make are yours and the responsibility for knowing and fulfilling degree requirements rests with you.
