

ESTC Meeting Agenda
Engineering Student Technology Committee
October 26, 2016
4:15-5pm
Scott Bioengineering Room 203

Old Business & Welcome

- Introduction of members (Kelley Wittmeyer)

- Approval of September 22 minutes

- Election of ESTC Chairperson for 2016/2017 (Daniel Dauwe - exiting Chair)

New Business

• **Backup Tape Retention Decrease**

ENS would like to drop the tape backup retention period from 6 months to 3 months due to an increase in user data filling up the tape library.

• **Thin Clients for Students**

In Spring of 2015, the ENS Review Committee noted a concern that thin clients are not sufficient for many student needs. ENS deployed an upgraded model of thin client increasing performance throughout the labs. Feedback is requested by ENS from the ESTC to see if there are still issues with the thin clients in the labs.

- Future meeting date/time
(Emily Fischer suggests not 11/29 nor 12/13)
