

## **Engineering Student Technology Committee (ESTC)**

**December 7, 2007**

Titan Studio Classroom, 12:00pm

*In Attendance* – Christina Canter, chair (CBE), Derek Bonner (ECE), Kris Bruun (CEE), David Grzenia (CBE), Chris Klumph (ECE), Brad Reichel (CEE), Mark Ritschard (ENS), Tiffany Suekama (CBE)

*Absent* - Prof. Mazdak Arabi (CEE), Becky Adams (Atmos), Ryan Horn (CEE), Prof. Taka Ito (Atmos), Prof. Ricky Kwok (ECE), David Lerach (Atmos), Lucas Oehlerking (ME), Vladamir Shestak (ECE), Prof. Tom Siller (Acad. Affairs), Prof. David Wang (CBE)

### Introductions

### Minutes Approval

- September 26 – approved unanimously
- October 19 – postponed due to incorrect minutes being sent out
- November 9 – approved unanimously

### Amount of Student Organization Space on T:\ Drive

Currently the space is not regulated on the drive but it is running out.

- There is a limit on all student organization space, but there isn't a limit for individual organizations (floating file system).
- The committee does not feel any changes should be made, but an eye should be kept on the space.
- Kris Bruun will address the Engineering Without Borders space use at their next meeting.

### Restriction of Non-Engineering Students to the Lockheed Martin Labs

Labs are currently restricted from non-engineering majors because they do not pay the Engineering Student Technology fees, which fund the equipment in the labs. Should these labs continue to be restricted, even when there are non-engineering classes in Lockheed classrooms?

- The door between Viking and Magellan is currently locked from Viking to Magellan but not the other way around.
- The committee does not feel any changes should be made.

### Lockdown of Equipment in the Electrical Engineering Labs

It has been reported that computers and monitors in these labs are not locked down with security cables.

- A computer in one of the labs had memory stolen prompting a concern for security.
- Is there a way to require a lockdown of the equipment?
  - In the agreement between the ESTC and ECE for the funding of the labs, there were no stipulations on the security of the equipment.
  - A stipulation could be placed on the next round of equipment funding to the department.
  - Motion by Derek Bonner, that he would draft a letter to Tom Aurand to lock down computers and monitors
  - Motion changed after discussion to draft the letter to the department head of ECE, Tony Maciejewski.
  - Approved unimously

The meeting adjourned at 1:00pm. The next meeting will be scheduled by the chair.

Respectfully Submitted,  
Christina Canter
