Walter Scott, Jr. College of Engineering
Faculty and Staff Awards Fall 2019

Help recognize our outstanding colleagues by nominating an individual for an award listed below.

*Faculty and Staff Award Nomination:* Nomination packets consist of a letter of nomination and current vitae / resume / PDQ, as appropriate. Additional supporting letters are accepted but not required. Please limit the nomination to no more than 2 pages of text and no more than 5 supporting letters of a maximum of two pages each.

*Nominations are due by 5:00 PM on Friday, September 20.* Please submit a complete nomination packet *electronically, as a single PDF file*, to Laurel Donahue at laurel.donahue@colostate.edu. Award recipients will be announced at the All-College Meeting, Monday, November 4 in the LSC Theater beginning at 3:00 pm.

Nominees are NOT eligible for the same award if they were a recipient in the past 5 (five) years; however, they may be nominated in a different award category or categories as appropriate during the annual award nomination cycle. Previously-submitted nomination packets may be updated and resubmitted as appropriate; they are not automatically considered in the following year.

A listing of previous College Award winners may be viewed at [http://www.engr.colostate.edu/alumni_templates/college-of-engineering-award-recipients/](http://www.engr.colostate.edu/alumni_templates/college-of-engineering-award-recipients/)

1. **George T. Abell Outstanding Faculty Research Award**

To recognize high quality, nationally acclaimed research productivity.

- The nominee must be a faculty member in the Walter Scott, Jr. College of Engineering.
- The award recognizes honors and awards from professional societies; quality and quantity of journal publications; citations of publications; invited keynote addresses at national and/or international meetings; technical committee chairmanships; memberships on state, national or international technical advisory boards; membership in the National Academy of Sciences or Engineering; and the number of Ph.D. and M.S. graduates as a major professor.
- All accomplishments cited should have been attained within the past five (5) years. In exceptional circumstances, career recognition and achievement may be appropriate.
- The accomplishments should recognize the demonstrated broader impacts of those contributions on society, industry or the disciplines of engineering.

2. **George T. Abell Outstanding Faculty Teaching, Mentoring, and Service Award**

To recognize high quality, sustained teaching and mentoring excellence and service to the College.
• The nominee must be a faculty member in the Walter Scott, Jr. College of Engineering. The award recognizes significant contributions and accomplishment in teaching, mentoring, and service to the Walter Scott, Jr. College of Engineering. These achievements shall include evidence of quality classroom instruction, development of innovative teaching techniques, development of laboratories, excellence of advising, curriculum development, multimedia-publishing, publication of textbooks or laboratory workbooks, and publication of papers regarding teaching, curriculum or advising.
• The award recognizes contributions to promote the Principles of Community and inclusive excellence in teaching, research and/or service.
• There is no time limit for considering the accomplishments of the recipient. Career recognition is appropriate.

3. George T. Abell Outstanding Early-Career Faculty Award

To recognize the accomplishments of a junior member of the College faculty.

• The nominee must be a faculty member in the Walter Scott, Jr. College of Engineering serving at the Assistant Professor level.
• The award may recognize excellence and accomplishments in teaching, research and/or service.
• The award recognizes contributions to promote the Principles of Community and inclusive excellence in teaching, research and/or service.
• Nominations of outstanding faculty at any point during their service as Assistant Professor are encouraged.
• Faculty may receive this award once.

4. George T. Abell Outstanding Mid-Career Faculty Award

To recognize the accomplishments of a mid-career faculty member of the College.

• The nominee must be a faculty member in the Walter Scott, Jr. College of Engineering serving at the Associate Professor level.
• The award may recognize excellence and accomplishments in teaching, research and/or service.
• The award recognizes contributions to promote the Principles of Community and inclusive excellence in teaching, research and/or service.
• Faculty may receive this award once.

5. Art Corey Outstanding International Contributions

To recognize exceptional contributions by a faculty member at the international level.

• The nominee must be a faculty member in the Walter Scott, Jr. College of Engineering.
• The award recognizes international contributions in research, teaching, or service, and the demonstrated broader impacts of those contributions on society, industry or the disciplines of engineering.
• All accomplishments cited should have been attained within the past five (5) years. In exceptional circumstances, career recognition and achievement may be appropriate.

6. George T. Abell Innovation and Entrepreneurship Award

To recognize exceptional achievements in innovation, entrepreneurship and commercialization of university intellectual property.

• The nominee may be a faculty or staff member in the Walter Scott, Jr. College of Engineering.
• The award recognizes faculty and staff whose research has made commercial impact as evidenced by generation of university intellectual property, commercialization of university intellectual property, engaging in startup enterprises and/or collaboration with industrial partners; the award could also recognize efforts to promote entrepreneurship and innovation among faculty, staff and students through development and implementation of curricular and co-curricular programs.
• The achievements should recognize the demonstrated broader impacts of those contributions on society, industry or the disciplines of engineering.
• All accomplishments cited should have been attained within the past five (5) years. In

7. Walter Scott, Jr. College of Engineering Outstanding Staff Award

To recognize exceptional performance by and accomplishments of a College staff member.

• The nominee must have been an AP or State Classified staff member assigned to a position within the Walter Scott, Jr. College of Engineering for a minimum of three (3) complete years.
• The award recognizes exceptionally dedicated service to the unit, department and/or College, a commitment to the Principles of Community, and noteworthy position-related accomplishments.
• The staff member may have an administrative or teaching assignment.

8. Walter Scott, Jr. College of Engineering Outstanding Researcher

To recognize exceptional performance of a College non-tenure-track employee whose primary responsibility is to conduct research.

• The nominee must have been a researcher assigned to a position within the Walter Scott, Jr. College of Engineering for a minimum of three (3) complete years.
• The award recognizes outstanding research accomplishments and exceptionally dedicated service to the unit, department and/or College, and the Principles of Community.

9. Walter Scott, Jr. College of Engineering Service to Students Award

To recognize exceptional service to undergraduate or graduate students by a staff member within the College.
• The nominee must have been an AP or State Classified staff member assigned to a position within the Walter Scott, Jr. College of Engineering for a minimum of three (3) complete years.
• The award recognizes exceptional commitment to undergraduate or graduate students, student groups, or student organizations.
• The award recognizes student service through advising, supervision, teaching, or mentorship, and contributions to promote the Principles of Community and inclusive excellence.

10. Walter Scott, Jr. College of Engineering Rising Star Award – Staff

To recognize exceptional performance by and accomplishments of a College Staff member.

• The nominee must be an AP or State Classified staff member assigned to a position within the Walter Scott, Jr. College of Engineering for fewer than three (3) complete years.
• The award recognizes exceptionally dedicated service to the unit, department, and/or College, a commitment to the Principles of Community, and noteworthy position-related accomplishments.
• The staff member may have an administration or teaching assignment.

11. Walter Scott, Jr. College of Engineering Rising Star Award – Researcher

To recognize exceptional performance of a College non-tenure-track employee whose primary responsibility is to conduct research.

• The nominee must have been a researcher assigned to a position within the Walter Scott, Jr. College of Engineering for fewer than (3) complete years.
• The award recognizes outstanding research accomplishments and exceptionally dedicated service to the unit, department and/or College, and the Principles of Community.

12. Walter Scott, Jr. College of Engineering Faculty Achievement Award

To recognize exceptional achievements by a faculty member and the potential for continued significant contributions in research, teaching, and service.

• The nominee must be a full time, regular faculty member in the Walter Scott, Jr. College of Engineering in good standing.
• The award recognizes exceptional achievement in teaching, research, and service, sustained throughout the nominee’s faculty career at CSU.
• Preference shall be given to early or mid-career faculty members who exhibit the greatest potential for both immediate and long-term impact, and who will make significant contributions to the continued success of the College's programs and reputation.
• The award is made every two years, in odd-numbered years.
• Faculty may receive this award once.
