

# Pre-Orientation Checklist

1

Take the Math Placement Exam (MPE). If you did not place out of MATH 117- MATH126, complete the Pre-Calc Tutorial.  
<https://placement.math.colostate.edu/welcome/directory.html>

2

Complete all of the Chem Prep Modules. This is required to register for CHEM111.  
<http://www.chem.colostate.edu/undergraduate-students/chem-prep/>

3

Gather your ACT, SAT, TOEFL, IELTS, or PTE scores and go to [composition.colostate.edu/students/placement](http://composition.colostate.edu/students/placement) to determine if you are ready for CO150. Take Directed Self Placement (DSP) if needed.

4

Create your Engineering Network Services (ENS) account at [enr.colostate.edu/ens/](http://enr.colostate.edu/ens/). This will allow you to log in to campus computers and access important software tools.

5

Make sure you are Registration Ready! Log in to [ramweb.colostate.edu](http://ramweb.colostate.edu) and complete the Registration Ready steps in the center window.

More information can be found at  
<http://otp.colostate.edu/fy-placement-exams.aspx>.
