

# Fall 2019 Engineering Career Fair

WALTER SCOTT, JR.  
COLLEGE OF ENGINEERING  
COLORADO STATE UNIVERSITY

Hilton  
Hotel  
Thursday  
October 3rd  
10 a.m. - 4 p.m.

## Check Out: **Evening Employer Information Sessions**

Learn about the company, employee benefits, and potential interview opportunities. Information sessions are held in the Hilton Hotel:

**5:30 - 7:00 p.m.** Kimley-Horn in Natural Resources  
Ecolab in Vet Medicine  
ASML in Rams Room  
Mortenson in Research  
Pearl Harbor Naval Shipyard in Aggie

**7:00 – 8:30 p.m.** DOT Federal Highway in the  
Rams Room

## Next Day Interviews

Ace Info Solutions is a leading federal contractor with a focused vision: empower our clients, challenge our employees, and grow our business. Founded in December 2000, we are deeply committed to ensuring quality and customer satisfaction. We have a mature corporate infrastructure, strong management, and quality practices. Ace Info is proud to be one of very few businesses to achieve Capability Maturity Model Integration (CMMI), Level 3 maturity appraisal company-wide and registration as an International Organization for Standardization (ISO) 9001:2008, ISO/IEC 20000, and ISO 27001 certified company. We also have an Agile Center of Excellence and ANSI/EIA 748-compliant EVMS. Our Project Managers are all Project Management Institute (PMI) Project Management Professional (PMP)-certified. We are also an Information Technology Infrastructure Library (ITIL®) Accredited Training Associate (ATA) in partnership with the accredited training organization ITSM Academy. Ace Info is a trusted IT partner to the Federal Government, and we help various agencies transform and strengthen their processes, operations, infrastructures, and security practices to help them further their critical missions. For over 15 years, we have successfully managed large and significant federal programs. We have proven experience prioritizing client satisfaction, project quality, and providing innovative, cost-effective solutions to federal clients. We will bring our commitment and best practices to every new project.

Our work goes into everything from cars to coffee makers. Whether it is something you have never seen before to the things you can not live without, if it takes a charge, chances are it was built by Arrow. At Arrow, we help innovators to innovate. We work with some of the biggest players in the industry - all the ones you have heard of, plus many you have not. We help designers, engineers and partner companies develop tools and apply technology in new ways to create better cars, better homes, better planes, better hospitals, a better life. We help companies recycle old electronics so that useful parts and processors do not wind up in landfills. We help companies maximize their cloud data center investments and are on the cutting edge of the most energy efficient lighting systems. We help the world's best technology companies think "Five Years Out," working together to innovate the next big thing after the next big thing. When you think about the world of Five Years Out, Arrow is helping design it, built it and source it. At Arrow, you will be joining a team with a strong commitment to innovation and technology to make the world a better place for us all. We'll encourage you to develop your talents and discover new challenges every day.

## ***Emerson***

7070 Winchester Circle  
Boulder, CO 80301  
www.emerson.com

The Emerson, Boulder campus is the home of the Micro Motion brand, the original manufacturer of Coriolis mass flow meters, which began production in the late 1970's. The market for Coriolis meters continues to grow as technology advances and the need to tightly control industrial processes increases. Coriolis flow meters make use of the Coriolis force in a vibrating flow tube to measure mass flow rate and density to extremely high accuracies. The most advanced meters can currently measure flow rate to an accuracy of 0.05% and density to 0.0002 g/cc. Coriolis meter sizes span a wide range, from meters with flow tubes the size of a human hair to meters operating in 14" pipelines. Measurement applications are also diverse, and include oil, natural gas, food, beverage, pharmaceutical, chemical, cryogenic, marine, and power.

When you work at Otak, you are not just joining a firm — you are joining a community. We believe our best work happens in a culture of collaboration and inclusion, where the expertise of diverse individuals can thrive in a foundation of teamwork. The work environment we create is built on a simple concept: working on interesting projects with interesting people. However, we do not just believe in cultivating our own community; we are also committed to enriching the communities around us with smart, creative solutions. We know our employees make an investment in us, so we are committed to making an investment in them. Seasoned experts and young professionals work together to encourage personal growth and skill development at all experience levels. Plus, we are expanding — and we are dedicated to developing an internal infrastructure with the strength and talent to support that growth. Otak employees have a progressive mindset and sustainable community perspective. We encourage our staff to volunteer in their communities by giving them an option to earn extra vacation time for their volunteer hours. Otak combines the best of a small firm mentality with strong collaboration across disciplines with the plentiful opportunities to work on exciting projects offered by a growing firm. We also encourage life balance and foster a fun work environment. Our Northwest sensibilities are reflected in our commitment to sustainability and diversity. While believing that diversity fosters innovation and strengthens our skills, we embrace a culture of inclusion and equity in our company and in our communities.

## ***Progressive Insurance***

6300 Wilson Mills Road  
Mayfield Village, OH 44143  
[www.progressive.com](http://www.progressive.com)

If you are looking for the vibe and work-life balance of an exciting start-up, but the stability and flexibility of an established company, Progressive's got you covered. We're not what you'd expect from an insurance company ... or any company, for that matter. Unless, of course, you were expecting to find exciting career options and a culture cultivated by diverse, passionate employees. In which case, we're exactly what you were expecting. From the moment you arrive here, you'll instantly feel part of a team, work on fulfilling projects, get competitive benefits, have access to on-site gyms at our larger campus locations, and enjoy a vast contemporary art collection. You'll collaborate side-by-side with industry experts who welcome your new ideas and far-flung ambitions. In business for more than 80 years, Progressive offers a wide range of insurance choices to customers, including Auto, Home, Renters, Motorcycle, Boat policies, and more. We're the third largest auto insurer in the country—a combined effort of every Progressive person. Everyone here plays a role in our success as we continue to find new and better ways to move the insurance industry forward and be there for our customers during every stage of their lives.

Tulsa, OK 74103  
[www.wallacesc.com](http://www.wallacesc.com)

In simple terms, Wallace Engineering is a structural and civil engineering consulting firm. In reality, we are so much more than that. We believe that we have assembled the greatest group of engineers, technicians and support personnel in the industry. We are passionate about architecture and the application of engineering to the built environment. We believe that we have a responsibility to be active citizens in our profession and our communities, that we have more fun doing our job than just about anyone else. Each of our offices are designed to inspire creativity and promote collaboration. We have personnel licensed in all 50 states, Puerto Rico, the District of Columbia, the U.S. Virgin Islands and British Columbia, Canada, giving us in-depth knowledge of all model building codes including local codes and jurisdictions. Wallace Engineering does not operate as a series of separate offices. Each office is part of the whole, allowing us to bring together the individual talents required – regardless of location – to produce projects that are seamless. Projects that flow. Projects that delight. The art of engineering. Discover it at Wallace Engineering.
