

Pre-Orientation Checklist

Visit www.engr.colostate.edu/orientation for further information.

1

Log in and watch the required pre-orientation video

All incoming students are required to watch the pre-orientation video. Access information was sent to your CSU email account.

2

Complete the Math Placement Tool

All Engineering students are required to complete the Math Placement Tool by **June 2**.

Visit placement.math.colostate.edu/welcome/directory.html to access review materials and the Math Placement Tool link. If you did not place out of MATH 117- MATH126, complete the Pre-Calc Tutorial.

3

Complete all ChemPrep Modules

ALL ChemPrep modules are required for all incoming Engineering students, except for Computer Engineering students. Find more ChemPrep information at www.chem.colostate.edu/undergraduate-students/chem-prep/.

Give yourself plenty of time! There is a 48-hour waiting period for Chem Prep completion to show up in the CSU student information system.

4

Prepare for registration with Undeclared Advising videos

Get the basics of registration through the CSU Undeclared Advising Youtube playlist of short videos. Visit the YouTube playlist at https://www.youtube.com/channel/UCUo01_KUtO4mQNDIlrMHIZg/videos.

5

Are you ready for CO150?

If applicable, gather your ACT, SAT, TOEFL, IELTS, or PTE scores and visit the placement website at composition.colostate.edu/students/placement to determine if you are ready for CO150.

Take Directed Self Placement (DSP) if needed.

6

Create your ETS account

Visit www.engr.colostate.edu/ets to create your Engineering Technology Services (ETS) account. This will allow you to log in to campus computers and access important software tools.

7

Make sure you are Registration Ready

Log in to ramweb.colostate.edu and complete the Registration Ready steps in the center window.
